PREFACE

We are delighted to publish 'Performance Highlights of Member Banks' containing the performance of each member bank during 2019-2020 under various heads related to banking operations. We thanked member Banks for their spontaneous response and whole hearted cooperation in supplying the required information/data for the purpose of publishing the Performance Highlights of Member Banks. Without the support of the member Banks it would have not been possible on the part of BAB alone for presenting this useful book of Performance Highlights.

It is evident from the various figures that the member banks of BAB were not able to improve their performance as per expectation during 2020 as compared to 2019 due to Covid-19 pandemic situation. Most of the Banks could not reduce the non-performing assets both in absolute terms and in relation to loans and advances. But the banks also recorded higher profits than that of the previous year with some few exceptions as they could not maintain the profitability trend like other member Banks. It may be noted that throughout the year the Private Sector Banks suffered from adverse situation of lending as well as new investment due to Covid-19 pandemic. In spite of that the performance of member Banks have boosted the public confidence in the private commercial banks by deployment of fund of stimulus packages timely and effectively. The investors are finding the shares of the private banks attractive and consequently the stocks of the listed private banks are still profitable in the bourses as the member Banks managed the Covid-19 pandemic situation prudently as per guideline of Bangladesh Bank.

We hope that the publication will serve as a reference book to various types of readers / researchers.

We take the opportunity to thank to Research and Training Committee of BAB for Planning and conducting a series of need based online Training Courses and Workshops on various topics on virtual platform where member banks participated widely. Dissemination of both knowledge and experience in training courses are continuously contributing efficiency and capacity building of our Bankers. RTC is shaping of the events of BAB colorful. In fine, we express our vision to mobilize and use our banking sector in more co-ordinate manner so as to meet risk factor, regulatory compliances and global challenges in the greater interest of the economy as well as the nation.
